EVENT ACTIVATIONS

A moment that *stays*.

Live tattoo stations for corporate and private events in Berlin. Planned, staffed and run entirely by our studio.

THE CONCEPT

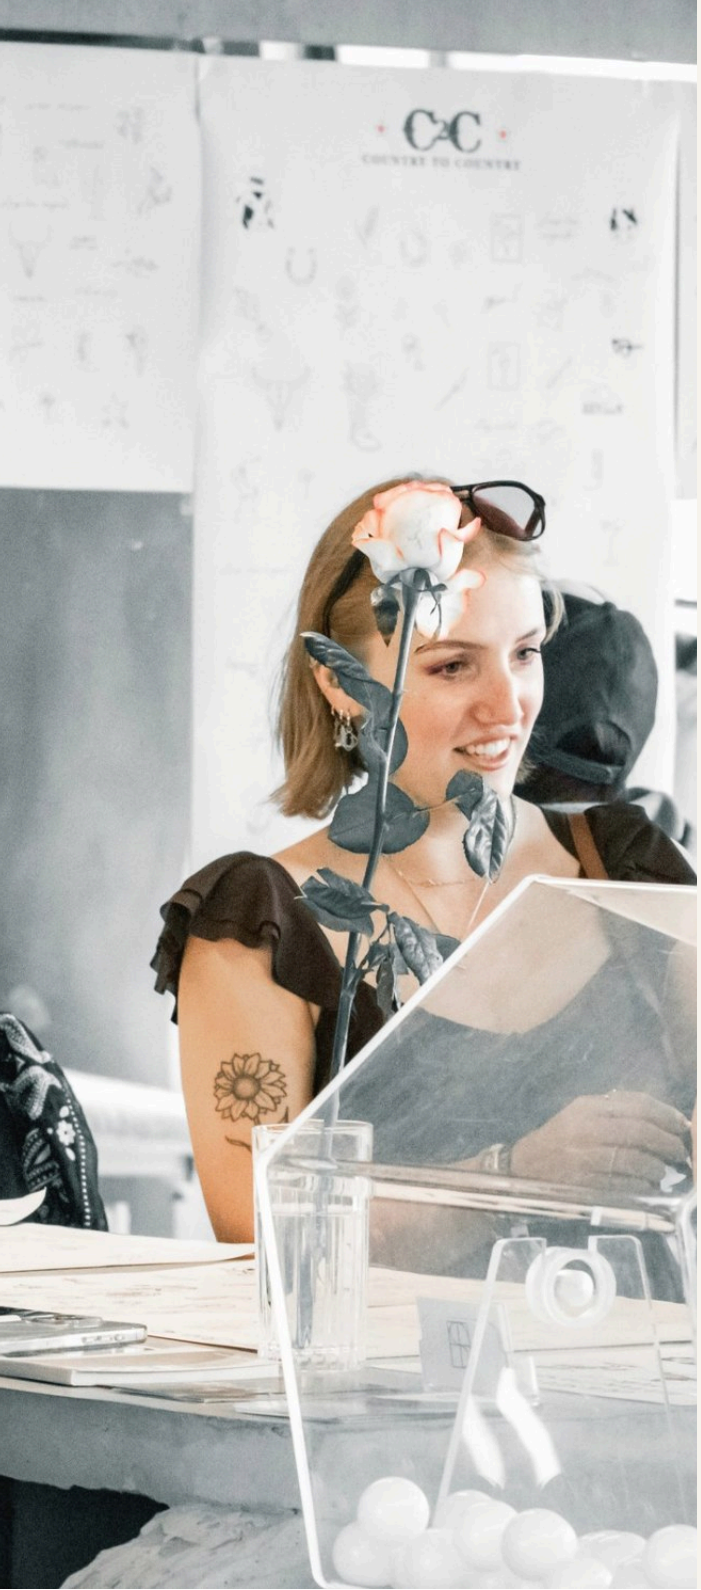

A tattoo studio, *set up at your event.*

Our artists run a complete, hygienic tattoo station on site. Guests choose a small design from a curated collection and are tattooed during the event. The host covers the activation; for guests, the tattoo is a gift. Everything from setup to waste removal is handled by our team.

WHY USEE TATTOO

What we add *to your event.*

A custom tattoo studio from Berlin Charlottenburg, working at festivals, backstage, in luxury hotels and on national TV. The artists at your event are the same artists who work in our studio, to the same standard.

01
A gift that stays

Most of an event is forgotten within days. A tattoo is the one part of the evening your guests keep, and they remember who gave it to them.

02
A natural meeting point

The station draws people in, starts conversations between guests who have never met and keeps energy in the room all evening.

03
Content that travels

Guests photograph and share their new piece, so your event reaches far beyond the room, in your guests' own words.

04
Designed around you

Flash collections built from your brand, theme or occasion. Wearable art with meaning, never just a logo on skin.

05
Proven at real events

We know event conditions: changing light, tight schedules, full rooms. See our track record on the next page.

06
No work for your team

We plan, set up, run and remove the station, with studio-standard hygiene and signed consent from every guest.

“We don't just create tattoos. We create memories.”
